

City Nature Challenge 2020

Join the Challenge!

Calgary Region
April 24 - 27

Calgary, Airdrie, Chestermere, Cochrane, and Okotoks will be under a total bioblitz and compete with over 260 cities from around the world to find out which city has the richest biodiversity.

Become a citizen scientist and help us document Calgary's regional flora and fauna April 24 - 27. Then, post your findings and help others identify observations before May 3rd.

Taking Part is Easy

Create a free iNaturalist.ca account on your phone, tablet, or computer

Find Urban Nature Anywhere!

Plants, Animals, Fungi, Insects, or evidence (scat, fur, tracks, feathers, carcasses) of anything wild.

Take Pictures of What you Find

Be sure to note the location of the critter or plant using location services on your phone.

Share Your Observations

By uploading your findings to iNaturalist.ca on your phone or computer April 24 - May 3 (midnight).

**Observations can also be posted to ABMI's NatureLynx app!

Find an Event

Join the experts at events and workshops happening all around Calgary that are free and family-friendly!

OR organize your own and explore with friends in gardens, schoolyards, alleyways, local parks, anywhere, and everywhere!
